Barber wife and family, Cornelius Wolf, Chas. Bungey, Fred. Stuve, Wm. Leggett, and W. Bennett. They left Creighton on March 20th. At that time the ground there was clear of snow and a great deal of seedling had been done. In passing through Dakota the ground was still frozen. At Gretna a severe snow storm occurred which extended south as far as Nebraska. Most of this party have already visited Edmonton and have located land. Mr. Swan has a son who has been farming for the past year near the Two creeks on the road to Beaver lake.

THE first number of the Broadview, Assa., Vidette is to hand. It is published and edited by James Buchanan, late editor of the Broadview Sentinel. It declares for free trade and the liberal party platform.

CAPTAIN DAWSON, B.C.E., surveyor, of South Edmonton, has had an ordinary surveying compass altered and so fixed that he is now able to locate settlers on government sections in unsurveyed townships. JOHN LINEHAM, M.L.A. for Calgary, was married at Collingwood, Ont., on March 29th to Miss Minnie Martin, daughter of James Martin of that place. Sutter J.P.'s on Tuesday afternoon, charged with having on the night of March 17th allowed liquor to be drunk on his premises after closing hours. A large number of witnesses were examined and the case was adjourned until to-morrow afternoon at 2 o'clock. The prosecution was instituted by license Inspector Glover. C. M. Woodworth appeared for the prosecution and J. C. F. Down for the defendant.

THE funeral of the late Geo. Penelton, constable in "G" division N.W.M. Police, took place on Monday afternoon at 2 o'clock from the police barracks Edmonton to the Edmonton cemetery. The funeral was with military honors. Religious services were held in the barracks before starting by Rev. A. Stundén. A firing party of twelve men, with carbines reversed, marched at the head of the procession, then the fire brigade band playing the dead march, then a light wagon suitably draped bearing the coffin on which was laid a number of wreaths of flowers, then followed some thirty constables in full uniform, with Supt. Giesbach and Insps. Snyder and Primrose in company. The streets were very tidy and the marching was done in most creditable style. The burial service was read at the grave and a volley fired by the firing party.

THE Rose Maiden cantata will be given in Robertson hall, Edmonton, on Tuesday evening April 10th, and in Parrish's hall, South Edmonton, on Wednesday evening April 11th. Doors will be open at 7 o'clock and the performance will begin at 7:30 sharp. It is particularly requested that those who attend will be good enough to be seated before the time announced for commencement. It has been decided to add a second part to the evening's programme. The first part will be occupied by the cantata, and the second part will be as follows: 1. Piece by the orchestra. 2. Song, "My Little Woman," A. G. Randall. 3. Piano solo, "Home Sweet Home," with variations, introducing "The Storm," Miss Charbonneau, by request. 4. Cornet duet, Messrs. May and Clark. 5. Song, "The Flight of Ages," Miss Cookson. 6. Violin duet, Messrs. Purches and Cory. "God Save the Queen," as arranged by Sir Michael Costa, by full chorus.

THE party of immigrants who came from Glencoe, Minnesota, on last Thursday's train by the 8:00 line, complain that while they were promised in writing and by printed circulars a rate of \$8.05 from Portal on the boundary line, when they reached Portal they were charged \$9.90 to Edmonton, which made a difference of some twenty dollars to the party. They do not complain at the price but they want to know how it is that the promises made are not strictly adhered to. This is a matter that should be set straight at once. These people should receive their money back, and either the rate should be revised and made \$9.90 or the advertised rate of \$8.05 should be adhered to. It appears also that they had to pay \$1.00 a car at Portal for certain necessary papers, and \$2.00 more on arrival at Edmonton than they had been informed would be charged. These little things tend to create dissatisfaction and should not be allowed to occur. They are not business.

## WOOD BUFFALO.

At the last session of the North-west Assembly a resolution was passed calling the attention of the Ottawa authorities to the advisability and necessity of adopting some measures for the preservation from extinction of the wood buffalo still remaining in the region between the Peace and Liard rivers and between the McKenzie river and the Rocky mountains. A reply to this resolution has been received in which the following passage occurs:

"The Minister of Interior, to whom the matter was referred, reports that in his opinion legislation should be asked for by the government for the purpose of protecting the buffalo, and other valuable animals, in the region mentioned in the resolution, and he recommends that the lieutenant-governor of the Northwest Territories be informed that such action will be taken in the meantime to meet the wishes of the Assembly as the government of Canada may consider necessary."

The reading of the above conveys an idea altogether different from, if not directly contrary, to the terms of the resolution on the subject passed by the assembly, and which is taken as the basis of the report to the privy council. The assembly did not ask for legislation to protect the buffalo or any other animals in the region referred to. Its references were confined strictly to the buffalo, and pains were taken to show at some length that legislation could not possibly meet the case, as the nature of the country and surrounding circumstances generally would prevent any possible legislation from having effect. The resolution stated that the buffalo could only be preserved from extinction by capturing enough of the animals for breeding purposes and keeping them in captivity. If the importance of the preservation of the species is not sufficient to warrant the expense of this method of procedure it will be far better to say so at the start and let the animals be destroyed without the interference of legislation which can only be vexatious to hunters and traders and cannot in the nature of things be effective in the preservation of the buffalo.

## DELEGATES REPORT.

The following report from the delegates to Ottawa was submitted to the town council last evening.

OTTAWA, March 12, 1894.

Town Clerk,  
Edmonton.

DEAR SIR,—

Kindly submit the following report to the council. On arrival in Calgary we waited on Hon. J. A. Loughheed, who gave us his promise to support our claims. In Winnipeg we obtained a letter from Mr. Whyte, Supt. C.P.R., to Mr. Van Horne urging him to give all assistance in his power. We also called on Mr. Chipman whom we found had left for Montreal.

Arriving in Ottawa we obtained an interview with Mr. Daly and found there was nothing in the estimates for a bridge. He renewed his promises made in Edmonton and we can rely on him doing his best. We have also interviewed the following ministers separately: Oulmet, Foster, Bowell, Sir C. H. Tupper, and Sir John Thompson, with whom we left copies of resolutions. All the ministers assured us that they recognized the importance of our claim, the only objections raised being want of funds, Oulmet and Foster thinking that the town should bear a quarter of the cost; but we think we have satisfied them of the injustice to a young town like Edmonton. On our own responsibility we offered to take 35,000 acres of land in the Edmonton district to be located by us and build the bridge, if they could not raise the funds. We expect to meet Sir Donald Smith, Bishop Grandin and Father Lacombe on the 27th inst. We have met all the members who have visited Edmonton, and they with many others have promised us their support. Things look hopeful but we will leave no stone unturned to have our claims recognized. Our member Mr. Davis is giving us his assistance.

M. McCauley.

GEO. KIRKPATRICK.

SPEAKING in the British house of Lords on Mr. Gladstone's retirement Lord Salisbury said: "But, at least, we his opponents, sitting in a house where we have not been subject to the glamour of his eloquence, can offer our passing tribute to the most brilliant intellect that has been placed at the services of the state since parliamentary government began, and of the courage and resolution, and self-sacrifice and self-discipline with which he has continued exertions in behalf of the convictions he has acquired to the latest period that has ever been granted to an English statesman."

## EXEMPTIONS.

EDITOR OF BULLETIN.

Sir,—With your leave I will give my general idea on the subject you have been lately discussing. What I suggest would of course, if embodied in legislation, have to be surrounded by special provisions to meet exceptional circumstances.

For every head of a family I would exempt land and chattels sufficient to constitute a decent home, and sufficient provisions for a short period of time, and to a limited extent the special means of livelihood; for instance: the tools of a workman, the farming implements of a farmer. In the case of the latter I would exempt in this country as being part of his special means of livelihood a farm of 160 acres.

In considering matters of detail I would be more favorable to those who create the wealth of the country, of whom the farmer is the chief, than to those who handle it later on. For the disposal of exemptions—at all events of the home—I would make the concurrence of both husband and wife necessary. In the case of either being dead I would provide some other check for the protection of the children.

The arguments in favor of the foregoing plan, whether thought to be sufficient or not, seem to me to be sufficiently obvious to make it unnecessary for me to elaborate them.

N. D. BECK.

## PORT SASKATCHEWAN, ALTA.

Last night (Friday) about 7 o'clock a sad accident occurred by the caving in of a bank of earth, where constables Penclton, Lamb and Rockwell were working digging in the side of a hill, so as to erect a stable for their own use. Moors, Penclton and Lamb were in the hole, and the latter happening to notice the earth commencing to move called to his companion and then started out, his companion following. Neither had time to get clear. Lamb got shoved by the falling earth and escaped with a bruised arm and shoulder, while poor Penclton, it is supposed, stumbled over his shovel, as it was found under him, and when Lamb and Rockwell looked about, nothing but his head could be seen with a couple of tons of frozen ground on top of him. As this mass was too heavy for them Rockwell started for assistance and the doctor, leaving Lamb with Penclton. The feelings of the former can be well understood as he waited, watching for some ten or fifteen minutes, and not being able to do anything to assist his comrade. The deceased was born in Brampton, Ontario, and was about 30 years of age, and as fine a specimen of manhood as one could wish to see. A general favorite with both the officers, non-commissioned officers and constables of the whole police force and also with all our townspeople. He is to be buried with military honors on Monday in Edmonton, and no doubt it will be one of the largest funerals ever seen in Northern Alberta, as he was so well and widely known. Flags are flying at half mast to-day.

The opening of the new land office at Beaver lake shortly is a boon to the whole of that portion of the country, and everyone is pleased with the Department of the Interior being alive to the necessity of keeping up to the large increase of settlement in Northern Alberta.

March 31st, 1894.

Commenting on the above Jas. McMillan & Co., of Minneapolis, say: "In calling attention to these declines would say that a good many were more than we anticipated

when we issued our monthly circular of March 1st., and we have revised our prices for some articles as correctly as we can from the advices that we have received to date. In our monthly circular of April 1st we will make some further changes. Our advices from Europe are to be cautious in buying, because it is generally admitted that there will be a further decline on nearly all important kinds in the next sale, which occurs in June, which is always a very unsatisfactory one compared with the March sale. The American manufacturers have had a poor trade and consequently are not free buyers. We advise our customers to make frequent shipments, because as the season advances the quality of all kinds of furs, except the water animals, grows rapidly poorer, and this has its effect on the prices of winter-caught furs."

Free Press: A party of 150 colonists leave Michigan by Sault Ste. Marie on April 11 for the Edmonton district. They will come by way of Sudbury and the C.P.R.

The interior report shows a considerable falling off in the number of homestead entries from that of 1892, but it was larger than that of any former year excepting 1889. The entries for the past five years have been as follows: 1889, 4,416; 1890, 2,955; 1891, 3,523; 1892, 4,849; and 1893, 4,067. Of the entries in 1893, 460 were second homesteads, quite a large proportion, and 1,622 were made by native Canadians, 238 of whom had returned from the U.S. The foreigners who took up homesteads during the year were: United States, 580; English, 380; Irish, 50; Scotch, 94; French, 151; Belgians, 67; Hollanders, 5; Austro-Hungarians, 78; Mennonites, 192; Poles, 9; Swedes and Norwegians, 54; Danes, 14; Icelanders, 51; Australians, 1, and 1 Chinaman.

**LOCAL.**  
J. NIBLOCK, district Supt. of the C. P. R. arrived on last night's special.  
One of last night's special trains went out at 11 a. m. to-day. The other goes out at five o'clock this afternoon.  
The fire bell will be rung this evening at 7 o'clock, and every week day evening hereafter during the summer, announcing the hour at which the places of business close.

E. DEAN of London, Ont. arrived on last night's special, with a car of effects. Mrs. Dean and family will arrive to-night. Mr. Dean purchased James Norri's farm four miles north of town last summer and will reside on it.

Geo. Gould of Lampton County, Ont. arrived on last night's special with his wife, and family and a car of effects. Mr. Gould visited Edmonton last year and located near Fort Saskatchewan. Besides some good cattle and sheep he brought with him an imported Cleveland Bay stallion "Monarch" No. 833 in English herd book, brought from Whitby Yorkshire, England.

Two special trains arrived last night from Kansas, bringing 120 settlers and 27 cars of effects. Of the cars 19 were from Kansas, 5 from Dakota and 3 from Ontario. Arrangements were made for the Kansas party at the Columbia hotel. Seven busses were required to bring over the women and children. The stock is being brought across to-day. The intention of most of the party is to settle northwest of St. Albert. They occupied two tourist cars, and had a very quick trip, having left St. Paul Sunday morning last by way of the Soo line. All but four of the families are French Canadians. They have a large number of good horses, and are desirous of buying cattle.

W. J. O. BOURCHIER, of Bouchier & Gouin, real estate men, Calgary, came in on Thursday's train and went out on Friday. Arrangements are now being made whereby all C.P.R. lands north of Calgary will be handled by Messrs. Fitzgerald and Bouchier of the formerly real estate firms of Fitzgerald & Lucas and Bouchier & Gouin. They will have sub-agencies at each important point along the line. It is difficult to see the object of the C.P.R. in thus giving monopoly of the sale of their lands in this important district. It is true—and it is generally accepted as true—that competition is the life of trade, the company would get their business pushed more vigorously if it was not all in the hands of one firm whose interest in selling does not go beyond the commission received. The present arrangement places a power of discrimination for or against any certain place in the hands of that firm which easily may not be used in the company's best interest.

#### SCHOOL MEETING.

A meeting of the board of trustees of Edmonton public school district was held in Lafferty & Moore's office on Tuesday evening. The following accounts were passed:

Pay sheet for March.....	\$326.65
Mrs. Wm. P. Evans, stationery.....	5.10
J. Grove, water.....	1.50

Messrs. A. Taylor and A. McNicol were accepted as bondsmen of the secretary-treasurer, St. Geo. Jellett.

#### HOBBEMA.

On the 18th inst. four head of strayed cattle came home to the cattle ranch. The Indians immediately followed their tracks back and on the 19th brought in sixteen more. Fifteen out of the twenty were fat enough to make fair beef and five only were thin. These cattle have not had a mouthful of anything but what they got themselves. How is this for Northern Alberta?

The grist mill will start grinding in about two weeks. During the last two weeks the Indians have been bringing grain to the agency. They have brought in over 2,000 bushels, which has caused a block, as the storage is limited.

#### SAMPSON.

Picard—Sutter, that the chimney inspector be instructed to proceed with his spring inspection and insist on compliance with the by-law regarding brick chimneys.

#### THE BRIDGE DELEGATION.

Mayor McCauley returned from Ottawa on last night's special, and expresses himself as very confident that a sum of \$50,000 will be placed in the supplementary estimates for the bridge at Edmonton. He reached Ottawa on the evening of March 14th, and Mr. Kirkpatrick, who left him at North Bay for Toronto, joined him on the 18th. Their stock of ammunition included the resolution of the public meeting held at Edmonton at which the delegates were selected; resolution of the public meeting held at South Edmonton; letters from Mr. Maloney and others, St. Albert, and F. Fraser Tims, Ft. Saskatchewan; amount of freight crossing the river at Edmonton during the year; amount of money paid for freight at Edmonton station during past year; resolutions of the Patrons of Industry passed at the meeting held at Edmonton; letter from President Van Horne; letter from Sir Donald Smith; letter from Lieutenant Governor Kirkpatrick, of Ontario; and petition circulated three years ago and signed by 500 residents of the Edmonton district. C. C. Chipman, commissioner of the H. B. Co., was in Ottawa, and supported their representations. They met a number of members of parliament, particularly those who had visited Edmonton, and they expressed themselves strongly in favor of the bridge and promised every assistance in their power towards it. They also saw Mr. Laurier, leader of the opposition, who expressed himself favorably towards the project. On Monday, March 19th, the delegates saw the Minister of the Interior, who said he would see that an amount was set apart in the supplementary estimates, and advised that the delegates wait on the other members of the cabinet as well, so as to strengthen his hands. They then called upon Hon. Mackenzie Bowell, and were well received. The minister promised to support the appropriation. They next called upon Hon. J. A. Ouimet. He was strongly of opinion that the town should bear a share of the cost. He produced the plans and specifications made by Mr. Gouin. These are for an iron bridge of about 600 feet in length with five spans, the cost of which would be about \$86,000. Mr. Ouimet thought, however, that with the late reduction in the price of iron the present cost of the bridge would be considerably less. Mr. Ouimet finally agreed to support an appropriation for the bridge. Hon. Mr. Costigan was next seen, the delegates being introduced by his son J. R. Costigan of Calgary. Mr. Costigan was affable and favorable, as were also Hon. Messrs. Tupper, Caron and Angers. Hon. Mr. Ives, who visited Edmonton last summer agreed with the delegates that a bridge was badly needed and promised to strongly support the necessary appropriation. The premier, Sir John Thompson, was seen in company with Hon. Mr. Daly and Mr. Davis, M.P., and a full explanation of the case made to him. He thought that as the town would receive a large amount of benefit from the bridge it should bear a part of the cost. The delegates pointed out that this had not been the rule of the government in other cases and they hoped an exception would not be made in the case of Edmonton. At the conclusion of the interview the premier said that the government could build the bridge. They interviewed the minister of finance, Hon. Mr. Foster, accompanied by Mr. Davis, M.P. Mr. Foster was very strong on the propriety of the town assisting in building the bridge. Funds were low owing to the proposed reductions in the tariff. In reply to this argument the delegates pointed out the possibility of securing the construction of a bridge on a land grant if the cash was not available. At the conclusion of the interview the minister said that an amount would be placed in the supplementary estimates. Hon. Mr. Haggart did not seem favorably disposed towards the project but finally said he would not vote against it. After these interviews the delegates again waited on the minister of interior and reported the result. He stated that all had been done that could be done and he was satisfied that the amount would be placed in the supplementary estimates. The delegates then felt justified in returning home. Ottawa was full of delegations from all parts of the country on all conceivable subjects, not less than 400 being there when Messrs. McCauley and Kirkpatrick left, with the number increasing every day. Mr. McCauley thinks the Edmonton delegates were fortunate in getting down as early as they did, thereby receiving a better hearing than had they gone later. They started for home on March 29th. Mr. Kirkpatrick will probably arrive on Monday's train, he having called at Toronto on the return journey.

#### BOARD OF TRADE.

A meeting of the council of the Edmonton board of trade was held in the town hall on Tuesday evening, April 3rd. The president John Cameron in the chair.

The committee on by-laws reported in favor of the day of regular meeting being changed from Tuesday to Thursday. Also that the annual dues for new members be \$5.00.

Five applications for membership were considered, and a number of communications were received. On motion of Messrs. McDougall and Strang the communications from Acton Burrows re advertising, the post office inspector re distribution of mails from Edmonton, from St. John and Qu'Appell boards of trade regarding changes in the customs tariff and railway rates respectively, and from the minister of interior respecting an application for immigration agency in England were filed.

A communication from R. Kerr, general freight agent of the C.P.R., regarding recent reductions in freight rates on representations made by the board was received.
